

# XEROX®

## 7600 Scanner

# Scan your photos or papers with **One Touch Buttons**

### The Xerox® 7600 Scanner

- **Ultra Slim**
- **Five OneTouch Buttons**
- **USB Powered**
- **Specialized Lid Hinge**
- **1200 dpi Scanning**
- **Portable and Lightweight**

#### **The power of One Touch**

Whether you are scanning photos and documents at your desk or the library or the conference room, Xerox has brought quality and ease of use to your fingertips. The Xerox 7600 changes the way people think of scanning. Five buttons powered by Visioneer OneTouch® come pre-configured for common scanning tasks so you can scan to popular destinations such as email, folders and photo editing software. One Touch buttons can also be customized to unleash even more power for advanced users.

#### **Digital technology for your photos!**

Whether you are a wildlife or landscape photographer or just want to scan your family photos, the Xerox 7600 USB is the perfect tool to indulge your creativity. With 1200 dpi optical resolution and 48-bit color, the Xerox 7600 USB captures the finest detail from your original image.

#### **The software to get the job done!**

ArcSoft PhotoImpression offers the perfect combination of power and simplicity so you can do more with your photos. From quick corrections to creative editing, you can easily achieve high-quality results. Whether you scan traditional photos, drawings, or maps, PhotoImpression makes digital imaging a breeze.

PhotoImpression allows you to edit, retouch, enhance and manipulate your photos, turning them into compelling visuals for inclusion in hundreds of projects.

Nuance PaperPort automatically creates thumbnails of your documents and images then lets you organize them in color coded folders or drag and drop them to your favorite applications on the LinkBar.

#### **Powerful software**

The Xerox 7600 USB is ideal for the photo enthusiast who wants to scan photos and prints. It also works well for establishing a paperless office or creating colorful projects for print or Internet use. Scanning photos and documents has never been easier.

- **1200 dpi optical resolution**
- **48-bit Color**  
*(Recognizes over 281 trillion colors)*
- **5 Convenient OneTouch Buttons**

Includes a drivers designed for Windows Vista and XP to ensure compatibility and enhance your digital imaging experience.

## EMAIL

Stay connected with family and friends.

Lay a photo, document or magazine article on the glass, press the EMAIL button and Visioneer OneTouch technology takes over. OneTouch automatically finds the edges of your picture, performs a high resolution scan then launches your email application and attaches the scanned photo or document to a new message as a JPEG or PDF file for example. All you need to do is type in the email address.

## SCAN

Manage your documents in a paperless office.

The SCAN button sends documents or images to the PaperPort desktop where you can drag them into folders you create according to your organizational needs. PaperPort is the perfect application for managing your home or business records. For extra peace of mind, copy your scanned records to removable media such as a CD-R or DVD-R disk for storage in a safe place.

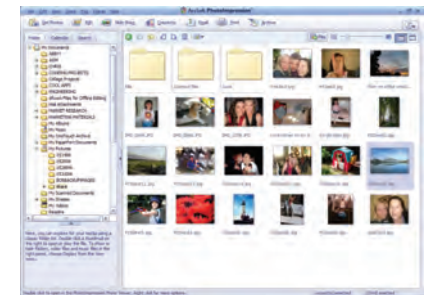

## PHOTO

Scan photos for easy image editing.

ArcSoft PhotoImpression is included with your scanner so that you can edit, resize and enhance your photos. The PHOTO button is directly mapped so that your scanned photos are opened in the PhotoImpression application. PhotoImpression allows you to:

- Enhance, resize and crop your photos
- Save photos in all major file formats
- Organize related photos in groups
- Apply clipart, frames, and edge effects to your photos
- Create many other fun and creative effects

## ArcSoft photo Impression

## COPY

Turn your PC and printer into a copy machine.

Need to make a copy? Your scanner, printer and PC provide all you all the gear you need to make copies with the push of a button. Lay adocument on the glass, press the scanner's COPY button and Visioneer OneTouch technology scans and sends the page to your printer for a crisp black and white or color copy.

## ARCHIVE

Relax. Your documents are protected.

You can have peace of mind knowing that your important documents, records, photos and certificates are backed up. Use the ARCHIVE button to scan your important documents to be burned onto CD-R or DVD-R. Paper is a temporary state of information. Scanning your documents is the first step to ensure their survival beyond paper. Storing these documents off-line on removable media is added assurance that they will be protected if your computer faces theft, loss, a natural disaster or a hard disk crash.
