

## **New Xerox DocuMate 3460 Delivers Fast and Easy Scanning of Documents and Plastic ID Cards**

Successful product line expands with new desktop scanner that can scan up to 120 ipm

Guildford, UK, 7<sup>th</sup> September 2010 – Visioneer & Xerox have today announced a colour sheetfed scanner that is small enough to fit on a desktop, optimised to scan ID cards and includes ultrasonic double-feed detection technology. The latest generation in this award-winning scanning series, the Xerox DocuMate<sup>®</sup> 3460 scans at 60 pages per minute / 120 images per minute in duplex.

The Xerox DocuMate 3460 is designed for desktop use in any office where scanning plastic ID cards, business cards, documents or other heavy card stock is necessary. It incorporates an exclusively designed front-feed tray that not only increases plastic card scanning efficiency but also reduces roller wear by up to 60% over competing brands, resulting in lower total cost of ownership. The Xerox DocuMate 3460 also includes ultrasonic double-feed detection technology that will alert the user if double feeding of originals occurs during scanning. This technology prevents lost images and enables paper of different weights or thickness to be scanned quickly and reliably.

“Every day the average office encounters documents in many shapes, sizes and materials,” said Peter Trapmore, EMEA Sales Director. “The Xerox DocuMate 3460 can scan multi-coloured forms, embossed plastic cards and various other documents at the press of a button; allowing office workers to move on to the next task.”

The Xerox DocuMate 3460 processes 60 ppm / 120 ipm at 200 dpi. It offers an optical resolution of 600 dpi, a hi-speed USB 2.0 interface (USB 1.1 compatible). Bundled software includes TWAIN and ISIS<sup>®</sup> certified drivers, Kofax VRS, Nuance<sup>®</sup> PaperPort<sup>®</sup>, and Nuance OmniPage<sup>®</sup> Pro. The convenient 50-page capacity automatic document feeder can handle paper and photos from business cards up to A4 documents. It is powered by Visioneer OneTouch<sup>®</sup> scanning technology for eliminating multiple steps in sending scanned documents in all popular file formats, including searchable PDF, to predetermined applications and/or to devices such as printers and storage systems in just one touch.

The Xerox DocuMate 3460 is priced at £1179 (ex VAT) RRP and an upgrade version which includes Kofax VRS Professional is priced at £1845 (ex VAT). The DocuMate 3460 is available immediately across Europe – for a complete list of resellers please visit: <http://www.xeroxscanners.com/en/uk/WhereToBuy.asp>

#### **About Xerox DocuMate Scanners**

Xerox Corporation and Visioneer Inc. entered into a trademark licensing agreement in July 2003 for Visioneer to develop, market and support a new line of Xerox-branded document scanners on an exclusive basis. Xerox DocuMate high-performance business scanners and document management solutions give people speed, image quality, advanced paper handling and ease of use with exclusive Visioneer OneTouch technology. Scanner products range from mobile and desktop scanners to production imaging scanners. For additional information please visit,
