

New Xerox[®] DocuMate[®] 4440 Scans More Than Just Paper

Versatile scanner which can handle a mix of ID cards, documents and more.

Guildford, UK, 24th June 2011 – Vioneer and Xerox[®] have today announced the Xerox[®] DocuMate[®] 4440, a new compact, sheet-fed document scanner intended to reduce paper chaos, document storage requirements and security risks associated with unorganised paperwork. It is one of the fastest and easiest to use scanners in its class offering duplex scanning performance of up to 80 images per minute (40 pages per minute), plastic hard card scanning, Kofax VRS image enhancement and ultrasonic double feed detection.

Many organisations have scanning requirements that go beyond scanning clean-laser quality pages, such as ID cards, multi-part forms, varying paper sizes, and hand-written notes and therefore require different imaging techniques. “The DocuMate 4440 handles it all,” said Peter Trapmore, Sales Director EMEA at Vioneer, a Xerox[®] licensing partner. “The 50-page automatic document feeder makes short work out of any stack of various sized paper and plastic cards — this technology delivers versatility and speed without compromising quality.”

The advanced features of the DocuMate 4440 help businesses eliminate cumbersome, expensive and time-consuming paper-based processes:

- Communicate seamlessly with leading workflow software applications. The DocuMate 4440 is a low-cost scanning solution for front-office scanning with TWAIN 2.1 Certified Drivers.
- Reduce the number of countless hours lost on data entry, routing and filing paper documents, not to mention the high risk for error due to hand-keying and potential for misfiling.
- Safeguard confidential information by digitally archiving and distributing information.
- Scan with ease using the top loading ADF. Designed with a straight paper path to ensure that plastic cards, as well as paper documents will feed straight through.

Powered by Vioneer OneTouch technology, the scanner allows users to scan to the “destination” of their choice by pressing a single button, eliminating multiple steps usually required to save

scanned documents in popular file formats. Using Visioneer CONNECT, a set of links for Visioneer OneTouch, users are able to scan and automatically upload documents to popular cloud destinations such as Google Docs™, Evernote®, DropBox and others with the touch of one button. Bundled software includes Kofax® VRS™, Nuance® PaperPort®, OmniPage Pro®, and certified TWAIN, ISIS and WIA drivers and Visioneer OneTouch with Kofax® VRS™ technology.

The Xerox® DocuMate 4440 has a UK list price of £666 (exc. VAT) and is available immediately across Europe – for a complete list of resellers please visit:
