

Xerox[®] Launches the DocuMate[®] 4799 & DocuMate 4790 Scanners for demanding environments

Everything you need in a high-speed document scanner:
Productivity, Reliability and Innovation

Guildford, UK, 14th April 2011 –

Visioneer and Xerox[®] have today announced two mid-volume document scanners that increase office productivity by scanning, emailing and copying documents with advanced document handling and image processing technology. The Xerox[®] DocuMate[®] 4799 and the Xerox[®] DocuMate 4790 are designed for easy operation in service bureaus, busy office environments and businesses with complex document scanning requirements.

The Xerox[®] DocuMate 4799 delivers superior reliability and the most advanced functionality for high production environments. By employing three advanced sensor systems; ultrasonic double feed detection, stapled document detection and intelligent feed control, this innovative scanner ensures that documents of various sizes can be stacked together in the automatic feed tray and will be processed at scan speeds up to 100 pages per minute.

The Xerox[®] DocuMate 4790 is a dependable scanner for both large-volume and distributed scanning needs with a daily duty cycle of up to 10,000 sheets and scans up to 90 pages per minute. It is powered by Visioneer OneTouch scanning technology for simplifying scan jobs and workflows. The scanner also has an easy-to-read LCD screen with resolution, colour mode, file type, processing and final destination of the scanned document.

“These new scanners complete the Xerox[®] DocuMate product line perfectly,” said Peter Trapmore, Sales Director, EMEA at Visioneer. “Our scanner offerings now span from desktop document management solutions to production level solutions for back office, high volume document capture applications.”

Designed for document capture and workflow, the DocuMate 4799 and DocuMate 4790 can deliver high quality black and white scanned documents and office quality colour scanned documents to printing systems. Both scanners support sRGB colour-space through the TWAIN driver which makes them colour-space compatible with the Xerox iGen digital press.

Bundled software on both scanners include Visioneer OneTouch with Kofax VRS technology, TWAIN, EMC Captiva ISIS and WIS drivers, Nuance OmniPage Pro and Kofax VRS Professional AIPE-EBC.

The Xerox® DocuMate 4799 has a UK list price of £9,375 (exc. VAT) and the DocuMate 4790 has a UK list price of £4,221 (exc. VAT) and are available immediately across Europe – for a complete list of resellers please visit: <http://www.xeroxscanners.com/en/uk/WhereToBuy.asp>.
