

Scan and Wirelessly Share PDF Files Instantly with the New Xerox® Mobile Scanner

Small cordless scanner sends JPG and PDF files to your computer, iPhone iPad or Android device via Wi-Fi

Guildford, UK, 10th January 2012 – Visioneer® and Xerox® have today announced the first battery powered scanner that uses Wi-Fi to wirelessly transmit JPG images and multipage PDF files from the scanner to computers, mobile phones, pads and the cloud...the Xerox Mobile Scanner. Using a free mobile app, the device is able to communicate wirelessly to a PC, Android®, Mac®, iPhone®, iPad®, iPod® touch or the Cloud.

Your boss sends an urgent email from the road asking you to send them an electronic copy of a client proposal. The only copy you have is on paper, and you're late for your own meeting with the sales team. Without needing a computer or even a power connection, the new Xerox Mobile Scanner lets you scan the document, create a PDF file and send it to your manager's mobile phone, in seconds.

Priced at only £249.99, the Xerox Mobile Scanner is a small (293 x 70 x 51 mm) colour scanner that includes a 4 GB Eye-Fi SD memory card, carrying case, rechargeable battery and charger. Simple to use, simply press the power button, select a file format (PDF or JPG) and insert the document. The scanner's patented AutoLaunch technology senses the page and begins scanning.

"The Mobile Scanner provides a quick, convenient way to scan and share documents when you're on the go," said Peter Trapmore, EMEA Sales Director at Visioneer, a Xerox licensing partner. "Untethering the scanner and adding Wi-Fi reflects Xerox's drive to make life easier for the mobile worker."

The maker of the world's first wireless Memory Card, Eye-Fi (www.eye.fi) was a collaborative partner in the development of the scanner. Eye-Fi's patented and patent-pending technology works with Wi-Fi networks to automatically send photos from a digital camera to online, in-home and retail destinations.

"The Xerox Mobile Scanner is the perfect capture device to work with our technology. We loved the idea and immediately knew that we were helping to design the future of mobile capture devices," said Ziv Gillat, Vice President of Business Development at Eye-Fi, Inc.

The Xerox® Mobile Scanner has a RRP of £249.99 (inc VAT) and is available immediately across Europe – for a complete list of resellers please visit:

About Xerox

Xerox Corporation is a \$22.5 billion leading global enterprise for business process and document management. Through its broad portfolio of technology and services, Xerox provides the essential back-office support that clears the way for clients to focus on what they do best: their real business. Headquartered in Norwalk, Conn., Xerox provides leading-edge document technology, services, software and genuine Xerox supplies for graphic communication and office printing environments of any size. Through ACS, A Xerox Company, which Xerox acquired in February 2010, Xerox also offers extensive business process outsourcing and IT outsourcing services, including data processing, HR benefits management, finance support, and customer relationship management services for commercial and government organizations worldwide. The 134,000 people of Xerox serve clients in more than 160 countries.
