## New Xerox DocuMate 6440 is a Quick, Well-Rounded Scanner That Puts Organizations on the Fast Track for Digital Success

PLEASANTON, Calif., Aug. 2, 2016 – The digital universe is doubling in size every two years, according to a report from IDC<sup>i</sup>. As a result, organizations today are tasked with finding ways to manage and unlock valuable information from both paper and digital documents. To help businesses address this challenge, Xerox introduced the [DocuMate<sup>®</sup> 6440](#), one of the fastest and most user-friendly scanners in its class. With integrated image enhancing software, the small scanner can scan up to one page per second to one of nine preset, configurable destinations – all without losing quality.

“As organizations embrace digital transformation, it’s important to deploy the right technology, especially in the first and crucial step of going from paper to digital,” said Walt Thinfen, president and CEO at Visioneer, which makes and markets Xerox DocuMate Scanners. “The new DocuMate 6440 is packed with features that improve efficiency and change how organizations analyze and manage business-critical information.”

### **Automated Workflow with One Easy Touch**

The DocuMate 6440 is powered by Visioneer OneTouch<sup>®</sup> technology to scan documents instantly to virtually any application, folder or device at the touch of a button. Working together with Acuity image enhancing software, the device automatically enhances and corrects images so that every document is perfectly scanned in a searchable PDF that can be routed to email or a custom enterprise web application. In the healthcare industry, for example, the provider can quickly scan patient documents and have them automatically routed to the pharmacy or billing department to improve productivity and efficiency – for both the provider and the patient.

Plastic ID and insurance cards, as well as paper documents, can be quickly scanned through the automatic document feeder, which holds up to 80 pages. Thirty-three percent faster than its predecessor, the DocuMate 6440 scans up to 60 double-sided color pages per minute.

Its versatility, combined with advanced paper handling technology, makes the DocuMate 6440 an ideal solution for healthcare, banking, education, energy, financial, government, and manufacturing industries.

### **Pricing and Availability**

The Xerox DocuMate 6440 has a suggested retail price of \$495 and is immediately available for purchase online at <http://www.xeroxscanners.com> and from authorized resellers in the Americas, Europe, Middle East, and Africa.

### **About Xerox**

Xerox is helping change the way the world works. By applying our expertise in imaging, business process, analytics, automation and user-centric insights, we engineer the flow of work to provide greater productivity, efficiency and personalization. Our employees create meaningful innovations and provide [business process services](#), [printing equipment](#), [software](#) and solutions that make a real difference for our clients and their customers in 180 countries. On January 29, 2016, Xerox announced that it plans to separate into two independent, publicly-traded companies: a business process outsourcing company and a document technology company. Xerox expects to complete the separation by year-end 2016. Learn more at [www.xerox.com](http://www.xerox.com).

### **About Visioneer, Inc.**

Visioneer, Inc., a leader in scanner and document management solutions, offers a broad range of digital imaging hardware products for the desktop, distributed and departmental markets as well as the mobile and remote business scanning segments. In 2003, Visioneer combined its leading scanner technology with the Xerox brand recognition to develop the Xerox® DocuMate® product line. Visioneer and Xerox DocuMate high-performance business scanners and imaging software solutions offer users speed, image quality, advanced paper handling and ease-of-use with exclusive Visioneer OneTouch® technology. Visioneer is an authorized trademark licensee of Xerox.
