

Xerox® DocuShare® for Inventory & Warehouse Management

A growing number of organizations are looking to modernize and automate their warehouses, with receiving, packing, and shipping documentation digitized and instantly accessible 24/7 from any device. Xerox® DocuShare® content management platform enables you to digitize and transform process flows and connect warehouse management systems to departmental business processes with highly scalable solutions that accommodate one-to-many global warehouses.

INVENTORY & WAREHOUSE MANAGEMENT WITH DOCUSHARE

Transform your organization, reduce costs, minimize errors and tedious processes, and achieve perfect order rates that help you outshine your competitors. Xerox DocuShare makes it easy to manage and track inventory and warehouse records without the need for manual processes.

Automated Workflow Solutions

Improve the visibility of inventory levels, reduce costs, optimize order fulfillment, and make inventory tracking and reporting easier.

Streamlined Inventory Management

Enable real-time shipment and inventory level tracking and streamline inventory management processes across warehouses.

Enhanced Inventory Visibility

Harness effective enterprise content management tools to improve visibility and management and quickly gain an in-depth view of inventory and warehouse movements.

Integration Capabilities

Gain a holistic view of warehouse operations by integrating with other enterprise systems, such as ERP and CRM.

Up-to-Date, Reliable Records

Streamline inventory tracking with a centralized system for recording and tracking physical inventory.

Improved Customer Experiences

Improve the accuracy and cost-effectiveness of inventory and warehouse management while delivering exceptional customer service.

Better Compliance and Security

Comply with safety and legal constraints by authenticating and tracking inventory in real time.

Support digital transformation with Xerox® DocuShare® content management platform for inventory and warehouse management. Experience a curated collection of capabilities to enhance every interaction across the physical and digital divide.
